OLIVER SACKS
A Leg to Stand On

“Saturday the 24th started overcast and sullen, but there was promise of fine weather later in the day. I could start my climb early...”

The author of twelve books, including the bestselling *Awakenings*, *The Man Who Mistook His Wife For a Hat*, *Musicophilia*, and *Hallucinations*, Oliver Sacks is internationally renowned for his compassionate approach to patients affected by profound neurological disorders. Yet when an accident on an uninhabited mountain in Norway leaves Dr. Sacks with a severe leg injury, he becomes the patient. During what should have been a routine recovery period, he experiences an overwhelming sensation that his injured leg is now absent from his body, and indeed from his physical awareness. In *A Leg To Stand On*, one of Dr. Sacks' most personal works, this disturbing experience is the starting point of a fascinating journey through the mysteries of perception, the physical substance of our identities, and the experience of being a patient.
