In just a few easy hours you'll read the story of an MBA learning accounting & business from his grandfather. It's a perfect start for beginners and people who learn best through story. The critical concepts that underpin all accounting are explained. The friendliness of the tale belies the power of the learning.

The Parable is based on the revolutionary Color Accounting system that explains accounting with diagrams. Vivid and colorful images throughout the book make the important concepts you need to know come alive - with breathtaking simplicity.

The second part of the book covers **financial analysis** and is suitable for beginners and more advanced students. Discovering the **5 fatal management mistakes** made by business owners is worth the purchase of the book alone.
