The T'au Empire is spreading, its boundless ambitions yet to be checked. Although world after world has been subsumed under their control, the T'au believe it is only the start of their new unified order, the first steps of a long journey that will end in a better existence for all. In their hearts they know it is their destiny to bring the light of truth to a galaxy drowning in darkness, and none have the right to deny their progress across the stars. If resistance is encountered, negotiations are swiftly and aggressively replaced with a purely military

solution.
