Guys, do you remember what it was like to have regular sex with the woman sleeping next to you? Do you love your wife, but wonder what happened to that sex life you once bragged about to your friends? Are you trying to figure out why your wife still turns you on, but it seems like she's not as excited by you? Are you wondering what you can do to bring back the sex goddess who, once upon a time, couldn't keep her hands off you and was up for doing it anytime/anywhere? Well, get ready to find out what you may be doing wrong--and how to step up what you may be doing right. Here's a book to help you get the sex you want and need in order to stay sane and happy.

Ladies, does your guy grumble about wanting more sex? Do you find yourself swatting his hand away when he goes for a quick grope? Does it seem like these days you are the one who is constantly turning him down because you're just not in the mood? Do you want to want sex, but feel like your man needs to seriously step up his game in and out of the bedroom? Is his idea of foreplay mounting you from behind while you're bending over the dishwasher? Sure, your

relationship may no longer be in the hot and heavy infatuation phase, but do you want your man to have an education in what makes a married woman (and mom) sexually tick? Here's a book that you can give your guy to help him enhance your sex life.

But *How to Get Your Wife to Have Sex With You* is also a book that you can read together and use to get on the same page. (Other than sleeping or actually having sex, reading this book is probably the most productive thing the two of you can do together in bed.) It will save you time, trouble, and therapy. From sex educator and author, Logan Levkoff, Ph.D. comes a book (no, make that a manifesto for understanding women) that is ballsy, honest and proves the point that at least when it comes to sex, "happy wife, happy life."
