This is the second step in your journey to learn to code, and the follow-up course to Introduction to Computer Coding Using Swift. In this second installment you will be using the fundamental coding tools you just mastered to design and build your own applications. This course walks you through the entire process, beginning with application design guidelines, and continuing through submission to Apple's App Store. At the completion of this course you will be ready to start publishing fundamental programs to include in your portfolio.

*** In an effort to provide students who have completed the Intro course with their next step as quickly as possible, this publication is being released as it is written. Chapters and sections will be released, fully complete, as they become ready for submission. Purchasers will receive the full publication as updates as part of their purchase.
