The iPhone changed the world. With an iPhone in your pocket, you have more computing power available to you than NASA did for the moon shot. How much of that are you using?

Learn to get the most from your iPhone from this media-rich book that is sometimes user guide, sometimes opinionated app recommendations, and sometimes iPhone sensei. Built entirely in iBooks Author, this multimedia book includes screenshots, photo galleries, video screencasts, and audio interviews all engineered to make you an iPhone power user. There are over 50 screencasts adding up to over two hours of video instruction, 450 pages, 44 chapters, and over 65,000 words to help you learn how to squeeze every bit of awesomeness from your iPhone.
