Want to learn to code? Want to learn C++? Struggling to follow your lecturer or books and tutorials written for experts? You're not alone. As a professional C++ developer and former Harvard teaching fellow, I know what you need to know to be a great C++ programmer, and I know how to teach it, one step at a time. I know where people struggle, and why, and how to make it clear. I cover every step of the programming process.

Jumping into C++ was designed to be the best introduction to C++, taking nothing for granted. Jumping into C++ starts by taking you step-by-step through getting the tools you need, including access to free compiler software and running your first program. You'll learn the same concepts that you would if you took a programming class, plus additional information on how to design and implement more advanced programs.
