National Bestseller

"A beautifully written memoir about the life of a woman in science, a brilliant friendship, and the profundity of trees. Terrific."—Barack Obama

Winner of the National Book Critics Circle Award for Autobiography

A *New York Times* Notable Book

Geobiologist Hope Jahren has spent her life studying trees, flowers, seeds, and soil. *Lab Girl* is her revelatory treatise on plant life—but it is also a celebration of the lifelong curiosity, humility, and passion that drive every scientist. In these pages, Hope takes us back to her Minnesota childhood, where she spent hours in unfettered play in her father's college laboratory. She tells us how she found a sanctuary in science, learning to perform lab work "with both the heart and the hands." She introduces us to Bill, her brilliant, eccentric lab

manager. And she extends the mantle of *scientist* to each one of her readers, inviting us to join her in observing and protecting our environment. Warm, luminous, compulsively readable, *Lab Girl* vividly demonstrates the mountains that we can move when love and work come together.

Winner of the American Association for the Advancement of Science/Subaru *Science Books & Film* Prize for Excellence in Science Books

Finalist for the PEN/E.O. Wilson Literary Science Writing Award

One of the Best Books of the Year: *The Washington Post*, TIME.com, NPR, *Slate*, *Entertainment Weekly*, *Newsday*, *Minneapolis Star Tribune*, *Kirkus Reviews*
