Utopia or Oblivion is a provocative blueprint for the future. This comprehensive volume is composed of essays derived from the lectures he gave all over the world during the 1960's. Fuller's thesis is that humanity - for the first time in its history - has the opportunity to create a world where the needs of 100% of humanity are met. "This is what man tends to call utopia. It's a fairly small word, but inadequate to describe the extraordinary new freedom of man in a new relationship to universe — the alternative of which is oblivion." R. Buckminster Fuller.
